Skill Tree: Color in the Boxes

Color in the boxes of anything you've already completed, visualize your skills and identify your skill gaps. Get inspired to try new things and tailor the skill tree to suit your own journey by swapping in your own goals.

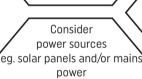

(set your own goal) (set your own goal) (set your own goal) (set your own goal) Build a multi Build a house storey house Build and live Repay a Build a tiny off the grid house mortgage **?** \$ Get house Build a shed Modify a shipping insurance container ~ Get Build a kitchen Build a bathroom bricks laid **F** Learn a building **Paint** Cut and skill from an expert the walls pitch the roof Consider Install windows Build a retaining potential water damage wall during construction Ħ Use your own

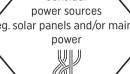

Consider

Hire a building

inspector

interior color scheme

of sun for house layout eg. non living areas to

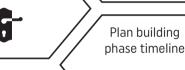

Get a block of land to build on **2**

Pour a concrete slab <u>-+++-</u>

Consider

Design your bathroom build

Research locally

materials

Organize

a mortgage

Decide between

slab on ground or timber

floor

6 Plan building budget and alternatives

available building

Get final building approval

Make a list

of minimum build requirements

Research types of building in your climate

proximity, slope etc.

START

Install drywall / plasterboard

Build a fence

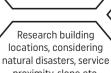

Design your kitchen build

Consider water sources eg. water tanks and/or town supply

Decide between timber frame or block

bob to check wall Learn different leveling tools

eg. laser, water

Consider drainage

Decide between

brick exterior or cladding

angle

Consider

placement of external

items, eg. air con,

water pump

丌

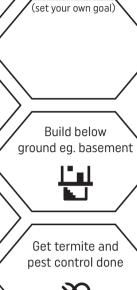

Consider roof

design for climate

including overhang and pitch

Learn local government building requirements

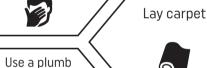

Get floors tiled

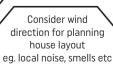

Consider climate change projections

1 tile = 1 point
